POLICY FOR ARTICLES/ PHOTOS FOR USE ON WEBSITE OR IN NEWSPAPER

All articles, photographs, match reports and other information pertaining to junior football, for inclusion on the club website, in newspapers or via other media must conform to the following:

1. Photographs of junior players/teams may only be published with written permission from all parents/guardians (see form below.)
2. You must not include single photos of single players (e.g. one player shooting at goal) and under no circumstances must you name a child in a single photo.
3. At the younger ages, i.e. under 15 and below, you should not name any player in a photograph. At under 16, you may consider using the first names of the children. However, no single photos should be used.
4. Under no circumstances should any other personal details of junior players be included in articles/captions. Adults in photographs, such as coaches or kit sponsors may be identified by name.
5. Articles/match reports may mention players by name with written permission from parents, but no other personal details to be included. Match reports for mini-football must not include scores of matches and should emphasise good play rather than goals scored. All match reports should be factual, praising of players for effort and must avoid defamatory comments about opposition sides or match officials, and should be complementary of opposition/officials if appropriate.
6. Please ensure that any photos only contain Pontypridd Town players as we cannot ensure that we have the permission of opposition players to be in photos.
7. Any parent who decides not to allow their child to be included in photos must explain this decision to their own child. Please ensure you point this out to parents to avoid putting yourself in a difficult position and upsetting a child.
8. If uncertain as to what can be published, contact the Welfare Officer (Mike Priest)
9. For technical details about file formats/maximum file sizes which can be used on the club website please contact Sam Turner
10. Ensure accuracy of your team's information and update contact details promptly.
